

//How this format works:
// The "question" is the sentence to be asked. Each comma represents a question.
// The "answer" is a hint, followed by what the correct answer should be.
// If you have trouble understanding this format I can write one which is easier
// to understand var sentenceData =

```

Comment [2]:

If you are talking to Takeshi-san directly, you must use とくい.

If you are talking about Takeshi-san to somebody else, you must use じょうず. So this question is not a good one.

Comment [3]: 「んです」 for both choices is optional and depends on the context, and thus, this is not a good question. If you want to keep this sentence, you should add the question 「どうしたんですか」

Comment [4]: This cues is not enough to reach the answer. You need include "to sleep"

ウェブサイトでかつよう (conjugation) がれんしゅうできるのは、とてもべんりで、いいと思います！でも、アドバイスがあります。

Feedback for improvement

- 1) Please correct all mistakes that I commented for both conjugation and sentence practice.
- 2) For conjugation/sentence practice, it would be great if you could give a correct answer after some tries.
- 3) For sentence practice, please make 5 more questions and at least have 15 questions. I suggest you include more Module 5 grammar such as 「ほうがいいです(advice)」 and 「なくてははいけません(obligation)」.
